

aiming to bring excellence to the
design and management of public
spaces in our towns and cities

Neighbourhoods Green

Established by Notting Hill Housing Trust and Peabody in 2003

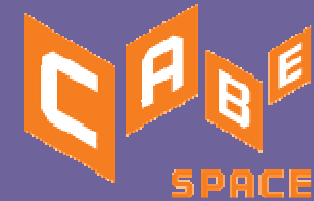

Highlights the importance of green spaces for the social housing sector
(Website, publications, seminars)

“The quality of people’s homes is influenced by the spaces around them. Well-designed, well-managed green spaces by and in between housing are crucial to making neighbourhoods liveable, and contribute to people’s quality of life.” Neighbourhoods Green, 2006

Decent homes need decent spaces

Action plan

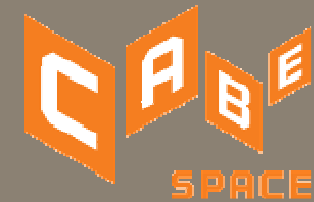

Identifies 10 key priorities for change
Sets out practical activities and resources

- Commit to quality
- Involve residents
- Know the big picture
- Make best use of funding
- Design for people
- Support training and skills
- Maintain high standards
- Make places feel safe
- Promote healthy lives
- Prepare for climate change

Above all, it's about creating great places
where people want to live!

Decent homes need decent spaces
Promote healthy lives

Cross Street South, Wolverhampton
Building for Life 2009 Award Winner: Score 18.5
