6. Talk the Walk offers any participant the opportunity to speak to the whole group - more recently we have tried to incorporate slide presentations. The more speakers there are the less time each is given to speak - sometimes as little as 3 minutes, never more than 5 minutes. We would welcome your comment on this element of Talk the Walk - tell us if you think we should restrict the number of speakers, offer more time to speakers and less to group discussions and questions or to networking, offer image projection or do away with it.

1. I think it is good to keep the presentations brief and visual aids (slides/powerpoints) are often useful (especially from my own experience for the speaker)	Thu, Aug 12, 2010 4:50 AM	Find...
2. Good as it is	Fri, Aug 6, 2010 3:35 PM	Find...
3. I thought the balance (~3 mins per speaker for 3 to 5 speakers) was about right. Too many speakers spoil the group!	Tue, Aug 3, 2010 9:55 AM	Find...
4. I think one of the really good things about TTW is the time limit on speakers. It is good practice for them to try and be succinct and also ensures that if someone is less skilled in orating in this way they a) get some practice and b) don't have too much time in which to turn the audience off. I think your current format works very well and keeps things spicy!	Tue, Aug 3, 2010 9:15 AM	Find...

7. I think offering more time to speakers would be better. It was too brief to understand some of the projects. I definitely fine slide presentation very beneficial.	Thu, Jul 29, 2010 5:35 PM	Find...
8. Keeping it short meant that, in theory, speakers were more focused and snappy. I was still surprised that some people rambled and didn't appear to have prepared very well. Image projection was a good added visual	Thu, Jul 29, 2010 3:16 PM	Find...
9. whilst having lots of speakers works well and is an engaging way to pick up on a lot of different issues within a similar theme, however, group discussion has always had to be curtailed which is a shame.	Wed, Jul 28, 2010 3:09 PM	Find...
10. Five minutes is about right, 3 mins too little. Don't think there should be slides. Group discussion is very important.	Wed, Jul 28, 2010 10:01 AM	Find...

12. Maybe have one long speaker as sometimes it is good to get a more in-depth perspective and then a large number of shorter talks which keeps interest and variety.	Tue, Jul 27, 2010 2:37 PM	Find...
13. At least 5 minutes probably needed to incorporate a few questions. Some images are helpful, but perhaps not for every speaker.	Tue, Jul 27, 2010 1:02 PM	Find...
14. not sure	Tue, Jul 27, 2010 9:50 AM	Find...
15. I think presenters did quite well in the little time given, and slides are always a help. However, of course, there is a limit of presentations one can keep in mind and a limit of time before they become too short and too many. I thought the last event was about fine. A no 'word' slides rule. 3 minutes is good, and general debate is really important - its often something that doesnt happen at other events. 30.	it was great to have such a diverse range of presentations but guess this meant far less time to network or go and talk to presenters. Maybe the second half could be used to make more links. this could be done creatively of course. 36.	Possibly one or two to o many speakers though it was good to have such a diversity of ideas. 37.	While all the speakers at yesterdays event were interesting I enjoy discussion and would have liked a bit more time for that but to contradict that comment the e-mail addresses on the handouts mean that we can take the initiative and contact people ourselves so maybe more speakers makes better use of the time people are together. I think 3-5 minutes is enough to get a flavour of the project being discussed and like seeing visual images (not Noels though - shame)	Fri, Jul 23, 2010 12:21 PM	Find...
38.	Slides are useful and can be inspiring. But although the system of a break was sensible, I still found it hard to take in and remember all the presentations. Possibly more time was needed; maybe change the format of the seating in between chunks - get people moving. Maybe bunch presentations under themes/headings. 7. Talk the Walk is funded through Rethinking Cities Ltd, a small vibrant consultancy, which seeks venue partners for each Talk the Walk, to provide a venue and refreshments. To date, each Talk the Walk has been free to participants - we want to try to keep it that way, however, it would be useful to know that if we are forced to charge, what level would you be prepared to pay to take part:

I must say that the opportunities and character of the event was attractive as it was free , and there is opportunity to help with it and take a more participatory approach. It is a real anti dote to big name conferences that cost £230 . I think if you want to maintain the participatory nature of the event a charge of say £ 5-10 might which would help with costs. However, I do think that £30 cost , though in some senses not that much would change the character of the event from a shared forum to professional service.

11. I don't know if my employer would be happy to pay but feels too mean to say I wouldn't pay at all. It seems everyone in the room could afford or employer could afford a small fee but often this is a real barrier especially to someone like Naseem who is part of a friends group so if it can be free it probably means a wider range of participants.
